Observation of World Cancer Day at ESIC MCH, Kalaburagi

CANCER AS FINANCIAL BURDEN

The Cost of Cancer :
The Impact of Cancer-Related Financial Burdens on Health and wellness Decision-Making

Did you know that financial distress from out-of-pocket cancer treatment costs is among the top 10 health-related quality of life issues for patients with cancer by WHO?

In 2022, 79% of our clients who reported their annual income under \$42,000 or less, the majority of our clients, reported financial distress.

How do you choose between priorities for your family or self-income needs?

How do you choose between your car payment and cancer treatment?

How do you choose between your home needs and cancer?

Cancer Care Services advise, do not use help to choose between paying for health needs and cancer-related bills.

1. Fulfill the child's needs while in the hospital.

2. Monthly income being affected due to managing and caring for a sick child.

3. Making financial plans after quitting a job or taking unpaid leave.

4. Savings are impacted.

5. Family members helping financially.

6. Financial aid and support from external parties.

7. Selling assets to cover sufficient finances.
